Dear Recipient:

Attached is the final, official copy of the Interior Alaska Subarea Contingency Plan (SCP). This plan supplements the Alaska Federal/State Preparedness Plan for Response to Oil and Hazardous Substance Discharges/Releases (the Unified Plan). The SCP, in conjunction with the Unified Plan, describes the strategy for a coordinated federal, state, local, and industry response to a discharge or substantial threat of discharge of oil or a release of a hazardous substance within the boundaries of the Interior Alaska subarea.

Please provide any comments to further improve the plan to the following address:
