

ALASKA DEPT OF
ENVIRONMENTAL CONSERVATION

USCG
MARINE SAFETY OFFICE ANCHORAGE

USEPA (REGION X)
ALASKA OPERATIONS OFFICE

LETTER OF PROMULGATION

1. The North Slope Subarea Contingency Plan is the guideline for establishing operations in the event of a major response effort to an oil spill or hazardous material release. This volume supplements the *Alaska Federal/State Preparedness Plan for Response to Oil and Hazardous Substance Discharges/Releases* (Unified Plan).
2. Information contained herein will be disseminated to agencies and personnel involved in various response and cleanup activities.
3. The North Slope Subarea Contingency Plan is the result of a joint planning effort. Members of the U.S. Environmental Protection Agency, U.S. Coast Guard, Alaska Department of Environmental Conservation, U.S. Department of Interior, and numerous other Federal, State, local, Native and industry participants contributed to this document. Additionally, the Alaska Clean Seas Technical Manual is an integral part of this plan. The Map Atlas (including the Map Atlas Legend Pages) and the Tactics Descriptions (Volume 1) provide additional and substantial detail to further complement the overall subarea plan.
4. We solicit comments and recommendations to improve this plan. Please forward your comments to Mr. Larry Iwamoto, Alaska Department of Environmental Conservation, Prevention and Emergency Response Program, 555 Cordova Street, Anchorage, Alaska, 99501.
